Subject: Request for license clarification and/or change of wording  
License 50-23283-02

Dear Ms. Simmons,

The application for our current license requested "Troxler Electronic Laboratories 3400 series Portable gauges" as one of the allowable purposes for use of licensed materials. The license as issued specifically lists the Troxler 3411-B gauges rather than 3400 series gauges.

I am currently planning on transferring one of my older 3411-B gauges back to Troxler and replacing it with a new Troxler 3430 gauge. This would have been allowable under the original wording in the application, but not allowable under the current wording. I request my license be changed to allow possession and use of Troxler "3400 series" gauges.

Sincerely,

Mark Hansen

**Attachments:** NRC Letter 12-11-19.pdf

Roberto,

Here's the letter from the licensee that's requesting to change the wording under Item 9.A., from to Troxler 3411-B to Troxler 3400 Series.

Thanks
