*ISNM 79009
amend 2*

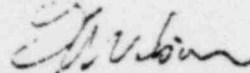

Subject: Application Amendment ISNM 79009

Dear Ms. Wright,

General Electric hereby requests amendment of NRC Import License No. ISNM 79009 reflecting values for constituents of the special nuclear material as recalculated on the basis of its "as discharged" irradiation history.

The quantities to be imported are changed from 0.642 to 0.658 kilograms U-235, and from 54.1 to 48.4 grams plutonium. All other values remain the same.

Very truly yours,

B. D. Wilson
International Marketing-FE&WH
