NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

APR 07 1981

Mr. T. M. Anderson, Manager
Nuclear Safety
Nuclear Technology Division
Water Reactor Divisions
Westinghouse Electric Corporation
P.O. Box 355
Pittsburgh, PA 15230

Dear Mr. Anderson:

SUBJECT: WESTINGHOUSE NUCLEAR QUALITY ASSURANCE

In your letters dated January 29, 1981, February 4, 1981, and March 30, 1981, you notified us of organizational changes within the Westinghouse Water Reactor Divisions. We did not formally respond to the earlier letters because they appeared to have minimal impact on the Westinghouse Electric Corporation Water Reactor Divisions Quality Assurance Plan (WCAP-8370). However, it is becoming very difficult to integrate all the organization changes made since Rev. 9 of WCAP-8370 was issued (see also the Westinghouse letters of February 15, July 15, August 27, and October 28, 1980).

Therefore, please consolidate information already supplied and update the organization charts and Section 17.1.1 of WCAP-8370. Also describe actions planned and schedules to fill the position of Director of Product Assurance for the Nuclear Technology Division.

If you have questions regarding this request, contact Jack Spraul on (301) 492-7741.

Sincerely,

Walter P. Haass
Walter P. Haass, Chief
Quality Assurance Branch
Division of Engineering
