Mr. Samuel Chilk  
Secretary,  
U. S. Nuclear Regulatory  
Commission  
Washington, D.C. 20555

Re: Packet No. 50-70 (Show Cause)  
G. E. Test Reactor

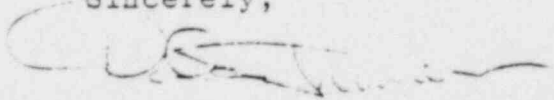

Dear Mr. Chilk:

Our City Council is vitally interested in the matter concerning the possible reactivation of the test reactor at G. E.'s Vallecitos plant located here in the Livermore-Amador Valley area.

Therefore, pursuant to Section 2.715(a), of the N.R.C.'s Rules and Practices, I therefore request approval to make a limited appearance to express the views of our City at a public hearing which will be held on May 27, 1981, on this matter.

I would appreciate your notifying me of the time and place of the hearing, and if approval has been given for me to testify on the matter as noted above.

Sincerely,

  
DALE TURNER  
Mayor
