Re: In the Matter of Consumers Power Co.  
"Midland Plants, Units 1 and 2"  
Special Proceedings  
Docket Nos.: 50-329 SP and 50-330 SP

Dear Mr. Deale:

Pursuant to the order of the Special Board dated May 23, 1978, and your letters to me of June 21 and June 28, 1978, I am enclosing letters authorizing Arnold & Porter to represent the interests of the Saginaw Valley Nuclear Study Group and the West Michigan Environmental Action Council in the above-styled proceedings. The Sierra Club has advised us that it will be furnishing a letter, containing a more limited authorization, within the next several days and we will forward this communication to you as promptly as possible.

With the possible exception of the University of Michigan Environmental Law Society, which we still have been unable to contact, we do not anticipate that we will obtain similar letters from other organizations which comprised the "Saginaw Intervenor" in connection with the underlying proceedings. In fact, some of these organizations no longer exist.

Very truly yours,

Rosalind C. Cohen
