Dear Mr. Cherry:

Enclosed for service on all parties is the index (priority #5), as promised. This index covers most of the materials in which you expressed an interest during the hearing and identifies the kinds of documents in Dow's files that were written in the period 1966-1976 (p. 718). Where there are files in other Dow locations, those files also have been described. It should be stated, however, that in a company the size of Dow, and given the fact that this project commenced over ten years ago, there are probably some files not yet identified. Mr. Wessel will further review this problem on Tuesday.

We have not attempted to assert any extensive attorney/client, work product, trade or business secret, or proprietary claims on these documents. Any such claims will be asserted, if applicable, when specific documents are requested.

Sincerely,

*L. F. Nute*
