Gentlemen:

Millstone Nuclear Power Station, Unit No. 2
Editorial Correction to License Amendment No. 60

In Reference (1), the NRC Staff issued License Amendment No. 60 to Facility Operating License No. DPR-65 in response to the Reference (2) request.

In reviewing the Reference (1) amendment, Northeast Nuclear Energy Company (NNECO) has determined that a typographical error exists in the issued Technical Specification Table 3.9-1.

The Table issued with Reference (1) lists door numbers 292 and 297 as servicing the Solidification System area. Please note that the correct door numbers are 292 and 207 as listed in Reference (2).

We trust that you will take the necessary action to correct this discrepancy.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
