September 17, 1980

Mr. John J. Linehan
Section Leader, Division of Waste Management
United States Nuclear Regulatory Commission
Washington, DC 20555

Subject: Your Letter of September 10, 1980,
Regarding Condition #11 and
Future Correspondence

Dear Mr. Linehan:

Paragraph #4 of the subject letter asks that we address all correspondence to you or to Ross Scarano. Pete Garcia has instructed me to do this in the past and, if I have sent letters to Pete directly, this was an inadvertent error on my part.

With regard to correspondence, a Ms. Nancy Dennis visited the mill on August 15. While she was there, she requested that the mill personnel perform additional analysis work. In line with your thinking on correspondence, it appears to me that all requests from NRC for action by Atlas should in turn be originated by you or Mr. Scarano.

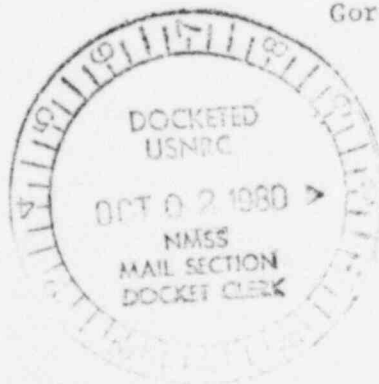

May we have your comments please.

Very truly yours,

Gordon T. Swanby
