

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

PDR

DOCKET NO. 50-409

DEC 3 1980

Dairyland Power Cooperative
ATTN: Dr. S. Raffety
Reactor Engineer
2615 East Avenue, South
LaCrosse, Wisconsin 54601

Gentlemen:

This refers to your April 16, 1980 request (submitted on your behalf by Nuclear Assurance Corp.) for a route approval to cover shipments of spent reactor fuel.

The review of licensee route approval requests is subject to the Commission's license fee schedule in 10 CFR 170. For reactor licensees, fees for the review of route approval requests will be assessed under fee Category F of Section 170.21, as special projects. In accordance with Footnote 4 of Section 170.21, the charge for the review will be determined by the Commission based on the professional manpower required to conduct the review plus any support costs. In determining the fee to be charged, only actual staff time expended in the review of the route request is used to calculate the fee; the route (field) survey conducted by the NRC staff is excluded from fee computation.

The review of your April 16, 1980 approval request was completed June 6, 1980 (copy enclosed). The cost of the review amounted to \$760 (20 man-hours @ \$38 per man-hour). We have, therefore, notified the NRC Office of the Controller to issue your Company an invoice for the fee.

We apologize for the delay in notifying you of the fee requirement for route approval reviews. If you have any questions concerning this matter, please let us know.

Sincerely,

W. O. Miller

William O. Miller, Chief
License Fee Management Branch
Office of Administration
