UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

April 13, 1981

MEMORANDUM TO: T. P. Speis, Chief
Reactor Systems Branch, DSI

THRU: Robert A. Clark, Chief
Operating Reactors Branch #3, DL

FROM: Robert E. Martin, Project Manager
Operating Reactors Branch #3, DL

SUBJECT: CESEC CODE VERIFICATION FOR ANO-2

Arkansas Power & Light Company (AP&LCo) has submitted with their letter dated March 27, 1981 a report on the verification of the CESEC code. This information is required from AP&LCo pursuant to a license condition. It is also needed to support the use of the CESEC-II code in the Cycle II transient analyses.

Satisfaction of the license condition and use of the CESEC II code are items which should be resolved for the startup of ANO-2's Cycle II now scheduled for early June 1981. Therefore we request that Reactor Systems conduct a brief review of this report, which is confirmatory in nature, and provide written evaluation by May 8, 1981.

Two copies of the report have been provided to Mr. J. Guttman of RSB on April 10, 1981.
