Gentlemen:

This refers to the investigation conducted by Messrs. J. E. Foster and R. G. Taylor of our staff during the period July 6-8, 1977, of activities authorized by NRC Construction Permit No. CPPR-128 for the South Texas Project facility, Unit No. 1 and to the discussion of our findings held with Mr. R. A. Frazar and other members of your staff at the conclusion of the investigation.

Areas examined during the investigation and our findings are discussed in the enclosed investigation report. Within these areas, the investigation consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors.

Within the scope of the investigation, no items of noncompliance were identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed investigation report will be placed in the NRC's Public Document Room. If the report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The

application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this investigation, we will be pleased to discuss them with you.

Sincerely,

W. C. Seidle, Chief
Reactor Construction and
Engineering Support Branch
