IN RESPONSE REFER
TO FOIA-80-369

Dear Mr. Reynolds:

This is in response to your letter dated July 11, 1980, in which you requested, pursuant to the Freedom of Information Act, copies of documents specifying the exact routes and numbers of shipments which have taken place and are scheduled to take place for shipments of spent nuclear fuel for all routes other than the eight routes requested earlier in your FOIA-80-275. You further stated that you were willing to accept the information in summary fashion with safeguards information deleted.

The Nuclear Regulatory Commission has published a report (NUREG-0725), showing NRC-approved routes for the shipment of spent nuclear reactor fuel, on a state-by-state basis. A copy of the report is enclosed, as is NRC Announcement No. 80-191, which made the report public. Also enclosed is a document entitled "Summary of Route Information" which is subject to your request.

This completes action on your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration
