Meeting Summary:

Management Meeting on January 6, 1981 (Report No. 50-423/81-01)

Areas Discussed: Management meeting held at NRC request to discuss details related to the establishment of an on-site office for the purpose of placing a full time NRC inspector at the facility.

Results: All parties concurred on administrative and operational considerations needed to establish an on-site NRC inspector.

DETAILS

1. Persons Contacted

On January 6, 1981, a meeting was held at Millstone Nuclear Power Station, Unit 3 to discuss details of establishing on-site facilities for a resident reactor inspector.

Personnel Present at the Meeting

Northeast Utilities Service Company (NUSCO)

Mr. B. Carlson, Project Manager (Berlin Office)
Mr. S. Orefice, Superintendent, New Site Construction
Mr. S. Toth, System Superintendent/Generation Construction

USNRC - Region I

J. C. Mattia, Acting Chief, Projects Section, RC&ES Branch
J. J. McOscar, Chief, Administrative Branch

2. Areas Discussed

- a. Facilities to be provided for the resident inspector.
- b. Provisions for telephone service including a plant telephone extension and NRC arranged outside phone lines.
- c. Interface responsibilities for communications equipment installation.
- d. Accessibility of NRC resident inspector to members of media and public.
- e. Resident Inspection Program
- f. Office space requirements.
- g. Mail services and the NRC local postal box.
- h. Clerical help to be provided by the NRC.

The proposed office space (interim trailer and final office in NUSCO building) for the resident inspector was examined and approved. A firm activation date for the resident office has not been established but a tentative date of March 15, 1981 was discussed. The NRC representatives indicated that further coordination to establish the resident inspector office and program at Millstone Unit 3 would be effected by the resident inspector.

A site tour was also conducted and no items of noncompliance or areas of concern were identified.
