Docket No.: 50-186

MAR 5 1981

Dr. Robert M. Brugger
Director, Research Reactor Facility
University of Missouri - Columbia
Research Park
Columbia, Missouri 65211

Dear Dr. Brugger:

The Commission has issued the enclosed Amendment No. 13 to Facility Operating License No. R-103 for the University of Missouri Research Reactor (MURR) in response to your filing dated January 26, 1981.

This amendment changes the organizational structure as outlined in Figure 6.0 of the Technical Specification 6.1 to reflect the current administrative organization for your facility.

Based on the fact that this amendment applies to administrative changes which do not affect the daily operation of the reactor or the reactor safety system, we have concluded that:

- (1) the amendment does not involve a significant increase in the probability or consequence of accidents previously considered, does not involve a significant decrease in a safety margin, and, therefore, does not involve assignificant hazards consideration;
- (2) there is reasonable assurance that the health and safety of the public will not be endangered by this action; and
- (3) such activities will be conducted in compliance with the Commission's regulations and the issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.

We have determined that this amendment will not result in any significant environmental impact and that it does not constitute a major Commission action significantly affecting the quality of the human environment. We have also determined that this action is not one of those covered by 10 CFR 51.5(a) or (b). Having made these determinations, we have further concluded that, pursuant to 10 CFR 51.5(d)(4), an environmental impact appraisal and negative declaration need not be prepared in connection with issuance of this amendment.

Sincerely,
