Gentlemen:

By application dated August 19, 1980 (Change Request 89), your company requested the Office of Nuclear Reactor Regulation (ONRR) to review a proposed change relating to Reload 7 and the definition of operable for your Vermont Yankee Nuclear Plant. With this application a Class III fee of \$4,000 was remitted under the provisions of 10 CFR 170.22.

In a letter dated January 13, 1981, we informed your company that the change relating to operable was a separate review item and subject to a separate fee assessment of \$1,200 for Class II. This additional amount has not been received by us; therefore, it should be remitted to this office within fifteen days after your receipt of this letter.

Sincerely,

Original Signed by
Wm. O. Miller
