February 26, 1981

Ivan W. Smith, Chairman
Atomic Safety and Licensing Board
25 North Court Street
Harrisburg, PA 17101

Dear Mr. Smith:

As a local businessman, with 80 employees, I feel the shutdown of Unit I has hurt my business considerably with monthly electric bills of \$15,000.00. I am in favor of restarting Unit I not only for economic reasons; but I also feel atomic plants are safe. I feel this one would be the safest plant in the country, as it would be watched closely.

As a concerned businessman and local citizen I ask the Board to be in favor of the Unit I restart.

Sincerely,

Walter H. Weaber Sons, Inc.
