Dear Mr Smith;

I am a paying customer of Metropolitan Edison Co. and am therefore interested in their welfare.

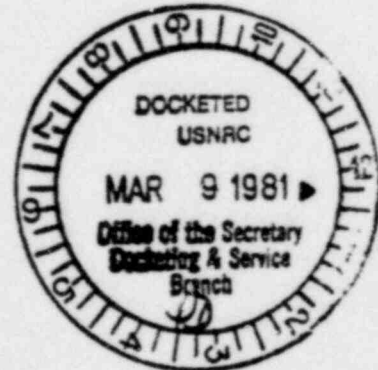

I think we are all sorry of the accident that occurred to Unit 2 at three mile island but can see no reason why Unit 1, which I understand according to the News Paper appears to be ok, cannot be restarted and generate the much needed electricity for all of their customers.

I am therefore asking your favor in permitting the restart of Unit 1 at three mile island.

Thank you for your favor I remain.

Very Truly Yours

Kenneth G Cregar
