

To: Mr. John Ahearne
U.S. Nuclear Regulatory Commission
Washington, D.C.

From: Kent Reinhard
119 Alta Dr.
La Selva, Ca. 95076

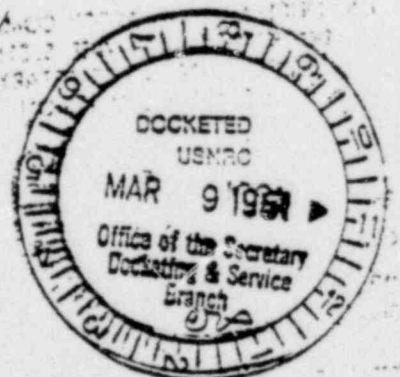

Mr. Ahearne; Please consider the gravity and importance of any decision concerning the possibility of opening Unit 1 of the Three Mile Island Nuclear Power Plant to operation.

Without any approved evacuation plans and with the obvious lack of other safeguards to protect the citizens of the United States of America it would be folly to restart this plant without full and unbiased public notice and hearings!

Put the "Bulldog Regulator" back in the Nuclear Regulatory Commission and let him work to protect the public.

Thank You

Kent Reinhard
