METROPOLITAN EDISON COMPANY, ET AL.
(Three Mile Island, Unit 1)
Docket No. 50-289

Dear Members of the Board:

Enclosed are copies of the following documents which the Staff proposes to introduce as evidence in the proceeding on the general management capability issue:

1. Testimony of Donald Neely Regarding Board Question on Health Physics Program, with attached copies of his professional qualifications statement and "Evaluation of Metropolitan Edison's Response to the Items of Noncompliance and Significant Weaknesses Identified During the Special Health Physics Evaluation - IE Inspection No. 50-289/80-22"; and
2. Supplement Number Two to the Staff's TMI-1 Restart Evaluation (NUREG-0680).

Donald Neely will sponsor the health physics testimony and evaluation. He will be available to respond to questions in all areas covered by the evaluation except Section D, which discusses emergency planning. The Staff will provide a witness on the emergency planning aspects of health physics at a subsequent session of the hearing devoted to the issue of emergency planning. Section D was, however, included in this submittal in order to provide the Board and parties with the complete evaluation of the Licensee's response to the health physics inspection report.

Harley Silver will sponsor the Evaluation Report Supplement, and will be prepared to respond to questions regarding the contents of the Supplement.

Sincerely,

Daniel T. Swanson
