Ms. Jeannine Honicker
362 Binkley Drive
Nashville, TN 37211

IN RESPONSE REFER
TO FOIA-81-90

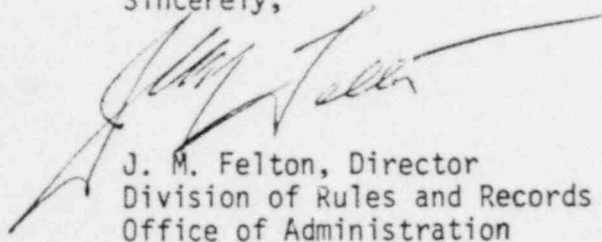

Dear Ms. Honicker:

This is in response to your letter dated November 11, 1980 providing comments on proposed exemptions for smelted alloy published in the Federal Register on October 27, 1980. In the last paragraph of your letter you requested, pursuant to the Freedom of Information Act, a copy of each comment and NRC's responses on this proposed rule.

In a telephone conversation with Mary Jean Raphael on March 11, 1981, you were informed that approximately 27 comments which were received on the Draft Environmental Statement will be attached and responded to in the Final Environmental Statement (FES). You will receive a copy of the FES in a few months. All other comments on the proposed rule are available for inspection and copying at the NRC Public Document Room (PDR), 1717 H Street, N.W., Washington, DC 20555. You indicated your willingness to visit the PDR in the near future.

Enclosed is a copy of Part 9 of the NRC's regulations which you requested. Section 9.14a outlines the criteria for submitting a fee waiver request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosure: As stated
