Docket Nos. 50-448/449

Mrs. Elizabeth Hart  
Charles County Library  
Garrett and Charles Streets  
LaPlata, MD 20646

Dear Mrs. Hart:

This will confirm your telephone conversation with Sandra Schlosser of this office on March 11, 1981, at which time Ms. Schlosser told you that we were officially closing the local public document room (LPDR) for the proposed Douglas Point Nuclear Power Plants. As you know, Potomac Electric Power Company has cancelled plans to build the plants.

As Ms. Schlosser discussed with you, we do not need to have the Douglas Point material returned to us as the official file copy is being retained by the Office of Administration here in our Bethesda, Maryland, offices.

Please feel free to keep any or all of the LPDR document collection. However, you may decide not to retain any LPDR material and, if that is the case, the documents may be disposed of.

I would like to take this opportunity to thank you and the staff of the Charles County Library for your help over the years with the local public document room collection; you have played an important part in our program.

Thanks again for your interest and support. Please give us a call on our toll-free number (800-638-8081) if we can be of assistance to you or your patrons in the future.

Sincerely,

Jona L. Souder, Chief  
Local Public Document Room Branch  
Division of Rules and Records  
Office of Administration

cc: Mr. J. Potts  
Potomac Electric Power Company  
Room 700  
1900 Pennsylvania Avenue, N.W.  
Washington, DC 20068
