

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Mera

JUN 11 1981

Docket No. 50-358

Mr. Earl A. Borgmann
Vice President
Cincinnati Gas & Electric Company
Post Office Box 960
Cincinnati, Ohio 45201

Dear Mr. Borgmann:

As a result of a recent meeting with members of your staff to discuss the revised guard training plan we have reviewed the provisions of 10 CFR 73.55 as regards implementation of and compliance with training and qualifications plans to meet requirements of §73.55(b)(4).

The portions of the general paragraph of 10 CFR 73.55 relevant to implementation and compliance read:

" . . . Each applicant for a license to operate a nuclear power reactor pursuant to Part 50 of this chapter whose application was submitted prior to February 24, 1977, shall submit by May 25, 1977, an amended physical security plan describing how the applicant plans to comply with the requirements of this section including schedules of implementation. If such applicant received an operating license after February 24, 1977, he shall comply with the requirements of paragraphs (b), (d), (f), (g) and (h) of this section, . . . by May 25, 1977, or on the date of receipt of the operating license, whichever is later and implement his plan and comply with the requirements of this section by February 23, 1979, or on the date of receipt of the operating license whichever is later."

It is our conclusion that the Guard Training and Qualification Plan required under §73.55(b)(4), for the Wm. H. Zimmer Nuclear Power Station shall be implemented so as to provide for qualified guards as of the date of receipt of the operating license.

The implementation dates contained in section §73.55(b)(4) were intended to apply only to operating reactors, not to applicants with sufficient lead time available to them to commence operations with trained and qualified guard forces.

Sincerely,

Robert E. Tedesco
Robert E. Tedesco, Assistant Director
for Licensing
Division of Licensing
