Mr. Robert L. Tedesco
Assistant Director of Licensing
Division of Licensing
Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Tedesco:

South Texas Project
Units 1 & 2
Docket Nos. STN 50-498, STN 50-499
Environmental Qualification of
Equipment - Commission's Memorandum
and Order of May 23, 1980

On December 10, 1980, Houston Lighting & Power Company received a letter from your office dated November 25, 1980 (ref. ST-AE-HL-661) in which all licensees of operating plants and applicants for operating licenses and construction permits were requested to submit information relative to commitment dates for meeting the requirements of the May 23, 1980 Commission's Memorandum Order. Your letter indicated that the staff reviews concerning environmental qualification of equipment are being divided into two categories; those plants for which a full power license is expected to be issued before February 1, 1981 and those plants for which a full power license is expected to be issued after February 1, 1981. The South Texas Project should be included under the second category and per the instructions of your letter the required information will be submitted at least four (4) months in advance of the expected date of issuance of a full power license for the South Texas Project.

If you have any questions concerning this matter, please contact Mr. Michael E. Powell at (713) 676-8592.

Very truly yours,

A handwritten signature in cursive script that reads "J. H. Goldberg".
