

SACRAMENTO MUNICIPAL UTILITY DISTRICT □ 6201 S Street, P.O. Box 15830, Sacramento CA 95852-1830, (915) 452-3211
AN ELECTRIC SYSTEM SERVING THE HEART OF CALIFORNIA

AGM/NUC 89-153

December 12, 1989

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Docket No. 50-312
Rancho Seco Nuclear Generating Station
License No. DPR-54
RANCHO SECO ACCREDITED TRAINING PROGRAMS

Attention: George Knighton

As of January 1, 1990, the Sacramento Municipal Utility District will withdraw its membership from the Institute of Nuclear Power Operations (INPO). Although this will result in a loss of "INPO Accreditation", Rancho Seco training will continue to use a systems approach to training per 10 CFR 55.59(c). The District will be revising our procedures and Updated Safety Analysis Report to reflect the change.

The District intends to maintain the regulatory-based operator training and operator requalification program, complying with 10 CFR 50.54(i-1), in accordance with guidance provided in NUREG 1220, and the Systematic Approach to Training (SAT) model defined in 10 CFR 55. Prior to any reduction in scope in the operator requalification program, the District will submit program changes to the NRC for review.

Members of your staff with questions requiring additional information or clarification may contact Mr. Steve Crunk at (209) 333-2935, extension 4913.

Sincerely,

Dan R. Keuter
Assistant General Manager
Nuclear
