PETITIONER REPLY TO THE RESPONSE OF THE NRC
STAFF TO PETITION FILED BY JOHN G. REED

Petitioner concurs with Staff findings that original petition of the undersigned, docketed by the Docketing and Service Branch on 10 September 1980, fails to meet the requirements of 10 CFR 2.714 and does contain other discrepancies identified by Staff Counsel.

Original petition was submitted without knowledge of 10 CFR requirements, nor details of Union Electric's amended application for the issuance of an operating license. Mr. Reed, now, feels that he can satisfactorily meet the requirements of 10 CFR 2.714 if permitted to renew and resubmit his petition.

In view of the Staff Counsel's recommendation that petitioner be afforded the opportunity to renew and refile its petition, the undersigned has begun drafting such a document. Resubmission of said document being dependent upon the decision of the board which will rule upon this matter.
