

WE, THE UNDERSIGNED, PETITION THE NUCLEAR REGULATORY COMMISSION TO REVOKE THE LICENSE FOR THE CONSTRUCTION OF THE NUCLEAR POWER PLANT AT SEABROOK, NEW HAMPSHIRE. WE OPPOSE IT FOR THE FOLLOWING REASONS :

1. No safe and responsible method has been developed to store nuclear waste. The effects of nuclear wastes have been proven harmful to people, causing cancer and genetic damage.
2. We do not want to be exposed to low-level radiation emissions, such as has occurred at Vernon, Vermont, where a similar nuclear power plant has been built. The cumulative effect of low-level radiation has been proven to cause cancer and genetic damage.
3. The cooling system of the proposed Seabrook plant has not been proven safe for the environment.
