Office of Nuclear Reactor Regulation
Attn: R. W. Reid, Chief
Operating Reactors Branch No. 4
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Reactor Building Purge Exhaust System

Page 4-57 of the TMI-1 Technical Specifications contains specification 4.14, "Reactor Building Purge Air Treatment System". This specification is redundant to specification 4.12.2 "Reactor Building Purge Air Treatment System" on page 4-55b. Page 4-57 should have been deleted upon receipt of Amendment No. 55, but was inadvertently retained. Therefore, we are requesting the deletion of page 4-57 from the TMI-1 Technical Specifications. No fee is required for this item because the technical specification change request that Amendment No. 55 was based on was submitted to the NRC prior to the enactment of 10 CFR 170.22.

Sincerely,

H. D. Hukill
Director, TMI-1
