

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

DOCKET NO. 50-368

DEC 22 1980

Arkansas Power & Light Company
ATTN: Mr. William Cavanaugh, III
Vice President
Generation & Construction
P. O. Box 551
Little Rock, Arkansas 72203

Gentlemen:

With your application dated September 11, 1980, you remitted a Class III amendment fee of \$4,000 for changes in the Arkansas 2 Technical Specifications relating to the containment cooling system service water requirements. Based on information provided by the staff of the Office of Nuclear Reactor Regulation, it has been determined that the review associated with this application was administrative in nature and, therefore, was in the Class II (\$1,200) fee category.

We have concurrently asked the Office of the Controller to refund a sum of \$2,800 to your Company. Refunds are generally processed within approximately two weeks.

Sincerely,

A handwritten signature in cursive script, appearing to read "W. O. Miller", is written over a faint, larger version of the same signature.

William O. Miller, Chief
