Docket No. 50-27

Mr. William E. Wilson  
Associate Director  
Nuclear Radiation Center  
Washington State University  
Pullman, Washington 99164

Dear Mr. Wilson:

Our review of the revised "Physical Security Plan for Washington State University Nuclear Radiation Center TRIGA Reactor" submitted by letter dated October 15, 1980 has indicated the need for revision, as the plan does not satisfy the requirements of 10 CFR 73.60 that would apply to the reactor in the event that the core became non self-protecting.

You are requested to respond to the comments on this subject as well as the others identified in the enclosure by January 16, 1980. This enclosure contains information of a type specified in 10 CFR 2.790(d) and should be withheld from public disclosure.

Sincerely,

A handwritten signature in dark ink, appearing to read "R. Tedesco", is written above the typed name.

Robert L. Tedesco, Assistant Director
