Re: Docket No. 50-133
License No. NPR-7

Dear Mr. Engelken:

This is in response to your letter dated November 14, 1980 concerning IE Bulletin 80-23, Failure of Solenoid Valves Manufactured by Valcor Engineering Corporation. It requested each licensee to determine if any Valcor solenoid valves having P/Ns V70900-21-1 or -3 are used in safety-related applications. No such valves are in use or are planned for use in safety-related applications at Humboldt Bay Power Plant Unit No. 3.

Approximately three man-hours were expended to conduct the review and preparation of this report.

Very truly yours,

Philip A. Crane, Jr.
