Mr. James G. Keppler
Regional Director
Directorate of Regulatory Operations
Region III
U.S. Nuclear Regulatory Commission
Glen Ellyn, IL 60137

Reference: Zion Generating Station
Docket No. 50-295/DPR-39
Technical Specification, Section 6.6.2.b.2

Dear Mr. Keppler:

Enclosed please find Reportable Occurrence Report No. 50-295/79-97 for Zion Generating Station. This event was originally classified as non-reportable. It was re-classified to a 30 day reportable occurrence on December 12, 1980 following a review of a similar type event.

This report is submitted to you in accordance with the requirements of the Technical Specifications, Section 6.6.2.b.2 which states conditions leading to operation in a degraded mode permitted by a limiting condition for operation or plant shut-down required by a limiting condition for operation shall be the subject of a thirty day written report.

Very truly yours,

K. L. Graesser
Superintendent
Zion Station
