Gentlemen:

Thank you for your letter dated February 18, 1981, informing us of the steps you have taken to correct the noncompliance identified in our letter dated January 6, 1981 (Inspection Report No. 50-483/80-27).

Based on a conversation between your Mr. F. Field and Mr. K. R. Naidu of this office on February 26, 1981, we understand that, relative to Item 2.c., you will review a sample of documentation packages of electrical mechanical components to determine whether discrepancies exist between QA documentation packages on site and the documentation required by the relevant specifications. We will examine your corrective action during a future inspection.

Your cooperation with us is appreciated.

Sincerely,
