Docket No. 50-271

Mr. Robert L. Smith
Licensing Engineer
Vermont Yankee Nuclear Power
Corporation
1671 Worcester Road
Framingham, Massachusetts 01701

Dear Mr. Smith:

This is to confirm that two individuals, under contract to NRC, from the Los Alamos National Scientific Laboratory will arrive at Vermont Yankee on March 2, 1981, to perform an engineering analysis for the purpose of identifying vital equipment at the site. This analysis will be accomplished during the period of March 2 - 6, 1981, and will require that the NRC contractors have access to both plant information and areas. Additionally, the assistance of one person highly knowledgeable of site layout and construction will be required for the entire period. The enclosure provides the names and identifying information of the NRC contractors. Inasmuch as it contains personnel information, the enclosure is being withheld from public disclosure.

Information you consider to be proprietary which will be required by these contractor personnel during the visit will be afforded protection from disclosure in accordance with standard NRC procedures.

Sincerely,

Thomas A. Ippolito
