Dear Mr. Grier:

Re: Nine Mile Point Unit 1  
Docket 50-220  
DPR-63

Your December 19, 1980 Inspection and Enforcement Bulletin 80-25 requested information regarding Target Rock Safety Relief Valves at boiling water reactors. There are no valves manufactured by Target Rock in use at Nine Mile Point Unit 1, therefore, the actions of your bulletin are not applicable.

This information demonstrates that continued operation of Nine Mile Point Unit 1 does not present an undue safety hazard to the public.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
