The submittal provides a revised Revision 8 to the Program Cyber Security Plan (PCSP) in response to U.S. Department of Energy Request for Additional Information issued on November 13, 2019 (ADAMS Accession No. ML19326A211). In addition, the submittal included an update to the PCSP Annual Continuous Monitoring Report Revision 4.

The NRC staff, in consultation with U.S. Department of Energy (DOE) staff, have completed the acceptance review of your submittal and no administrative omissions or deficiencies were identified that would prevent us from proceeding with a detailed review. Your submittal has been assigned Enterprise Project Identification Number (EPID) L-2019-SPR-0000, "Global Laser Enrichment (GLE), Information Security Oversight."

Please note that the NRC staff's technical review of your submittal may identify issues that require additional information. Based on our preliminary evaluation and projection of current review schedules, we anticipate completing our formal review by November 29, 2019. This date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule. In addition, the NRC staff estimates that completing the review of your submittal will require approximately 10 NRC staff hours which corresponds to about \$2,780.00 (\$278.00/hr.) and an estimated \$3000.00 in contract costs.

Note: a copy of the submittal package was not received by the NRC Document Control Desk which resulted in a delay in processing till December 9, 2019.
