S. W. Shields  
Senior Vice President -  
Nuclear Division

November 13, 1980

Mr. Victor Stello, Jr., Director  
U. S. Nuclear Regulatory Commission  
Office of Inspection and Enforcement  
Washington, D. C. 20555

Docket Nos.: STN 50-546  
STN 50-547  
Construction Permit Nos.:  
CPPR - 170  
CPPR - 171

SUBJECT: Marble Hill Nuclear Generating Station - Units 1 and 2  
Order Confirming Suspension of Construction

Dear Mr. Stello:

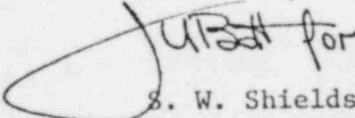

This letter is in response to your letter of May 15, 1980, identified as the "Graduated Rescission of Order Dated August 15, 1979."

Public Service Indiana has completed all requirements identified in Items A, B, C, D and E of the above-referenced letter for the Cherne Contracting Corporation (CCC) and Commonwealth-Lord JV (C-LJV).

On November 10-12, 1980, the American Society of Mechanical Engineers (ASME) survey team performed a survey of Public Service Company of Indiana, Inc. (PSI) ASME program. The ASME survey team found PSI's ASME Program and its implementation acceptable and will recommend to the ASME Subcommittee on Nuclear Certification that PSI be issued an "N" Certificate of Authorization.

Based on the foregoing activities, PSI hereby requests written notification to resume construction activities as provided in Item E.3 of your May 15, 1980 Order with respect to mechanical and piping construction activities by CCC and electrical construction activities by C-LJV. Your cooperation and timely response in this matter will be appreciated.

Sincerely,

  
S. W. Shields
