

UNITED STATES NUCLEAR REGULATORY COMMISSIONSOUTHERN CALIFORNIA EDISON COMPANY, ET AL.DOCKET NOS. 50-361 AND 50-362FACILITY OPERATING LICENSES

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No.80 to Facility Operating License No. NPF-10 and Amendment No.68to Facility Operating License No. NPF-15, issued to Southern California Edison Company, San Diego Gas and Electric Company, The City of Riverside, California and the City of Anaheim, California (the licensees), which revised the Technical Specifications for operation of the San Onofre Nuclear Generating Station, Units 2 and 3, located in San Diego County California.

The amendments were effective as of the date of issuance.

These amendments revise the following items in the Technical Specifications:

3/4.3.1 "Reactor Protective Instrumentation"

3/4.3.2 "Engineered Safety Feature Actuation System Instrumentation"

3/4.1.3.3 "Position Indicator Channel - Shutdown"

Specifically in each case, the associated surveillance interval has been changed from 18 months to each refueling interval, which is defined as every 24 months. The initial FEDERAL REGISTER notices did not specifically define the refueling interval; however, the 24 month period is the generally accepted fuel cycle and does not affect the initial notices.

The application for amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendments.

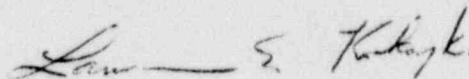

Notices of Consideration of Issuance of Amendments and Opportunity for Hearing in connection with this action were published in the FEDERAL REGISTER on February 24, 1989 (54 FR 8032, 8036 and 8037). No request for a hearing or petition for leave to intervene was filed following these notices.

The Commission has prepared an Environmental Assessment related to the action and has determined that an environmental impact statement will not be prepared and that issuance of the amendments will have no significant adverse effect on the quality of the human environment.

For further details with respect to the action see (1) the applications for amendments dated April 26, 1988 (PCN-248), April 26, 1988 (PCN-251) and December 19, 1988 (PCN-282), (2) Amendment No. 80 to License No. NPF-10 And Amendment No. 68 to License No. NPF-15, (3) the Commission's related Safety Evaluation and (4) the Commission's Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC 20555, and the General Library, University of California, P. O. Box 19557, Irvine, California 92713. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Reactor Projects III, IV, V and Special Projects.

Dated at Rockville, Maryland this 21st day of November, 1989.

FOR THE NUCLEAR REGULATORY COMMISSION

Lawrence E. Kokajko, Project Manager
Project Directorate V
Division of Reactor Projects III
IV, V and Special Projects
Office of Nuclear Reactor Regulation
