

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION V

1450 MARIA LANE  
WALNUT CREEK, CALIFORNIA 94596-5368

December 8, 1993

MEMORANDUM FOR: Frank Wenslawski, Deputy Director  
Division of Radiation Safety and Safeguards

Howard Wong, Chief  
Reactor Projects Section II

FROM: James Reese, Chief  
Facilities Radiological Protection Branch

SUBJECT: ORAL QUALIFICATION BOARD ASSIGNMENT

You are assigned as members of an Oral Qualification Board to determine the qualifications of Mr. Kirk Brewer to conduct independent inspections as a Reactor Health Physics Inspector and a Fuel Facilities Specialist Inspector. Mr. Wenslawski will serve as Board Chairman. The Board will be held in the 4th floor conference room at 1:00 pm on Friday, January 14, 1994. The oral examination will be a minimum of two hours long.

The pertinent sections of the Region V Instruction No. 1011, Rev. 6, provide guidance for your activities. You will review the inspectors completed training records and determine, by oral examination, whether the inspector meets the minimum knowledge and qualification standards specified in IMC 1245. Your inquiries should be directed to those areas specifically addressed in the individuals training journal.

At the conclusion of the Board meeting, the Board will prepare a written recommendation to the Regional Administrator (a copy of the form to be used is included in Region V instruction No. 1011). The Board will recommend either (1) that the inspector be certified as qualified, (2) that more training be given in specified areas, or (3) that additional training be provided, followed by another oral examination. The completed form will be entered into the inspector's training record and a copy will be sent to the Technical Training Center.
