SUBJECT Additional Information Needed for License Amendment				
SUMMARY <p>As requested in my letter dated November 15, 2019, I requested that you resubmit your request on company letterhead having the request signed by a management representative. I explained that this was necessary because the license is a legal document and all correspondence with this office must be signed and dated by individuals that are authorized by your company to make legally binding statements. I did advise that in lieu of a signed letter, I could also accept the request provided that an attached Delegation of Authority, signed by a management representative, which supported your appointment as Radiation Safety Officer was provided. You agreed to resubmit the request in proper form as requested.</p> <p>I also requested clarification of your intention with regards to the submission of the Radiation Protection Program. I alerted you that the evaluation of the Radiation Protection Program would delay the amendment request because I would need to ensure that your updated program was either consistent with our NUREG-1556, Volume 1, or otherwise satisfied the minimum regulatory requirements. You advised that submission of the Radiation Protection Program was done in error and that it should be rescinded. The only portion applicable was the RSO Duties, which you indicated would be resubmitted with you response letter. If desired, I advised that you could revise and resubmit your Radiation Protection Program at any time, but I recommended making this a separate request.</p> <p><b>Continue on Page 2</b></p>				
ACTION REQUIRED (IF ANY) <p>Please submit your response as soon as possible, but no later than November 30, 2019, and reference it to my attention as "additional information to control number 616006" to facilitate proper handling in our office. Your response must be currently dated and signed. If you have any questions or require clarification of any of the information stated above, please do not hesitate to contact me at 630-829-9737.</p> <p>In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <a href="http://www.nrc.gov/reading-rm/adams.html">http://www.nrc.gov/reading-rm/adams.html</a>.</p> <p><b>Continue on Page 3</b></p>
