YANKEE ATOMIC ELECTRIC COMPANY

20 Turnpike Road Westborough, Massachusetts 01581

August 11, 1975

United States Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Office of Nuclear Reactor Regulation

Reference: 1. License No. DPR-3 (Docket No. 50-29)
2. Letter from R. A. Purple, dated March 26, 1975
3. Proposed Change 112, dated January 3, 1974
4. Proposed Change 118, dated December 10, 1974

Dear Sir:

Pursuant to Section 50.59 of the Commission's Regulations, Yankee Atomic Electric Company hereby requests to make the following changes:

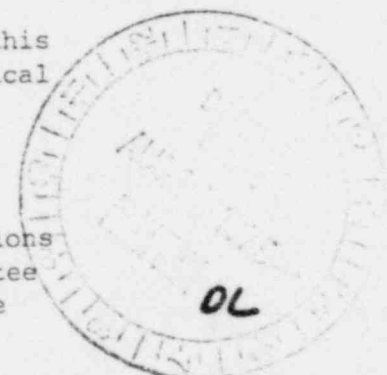

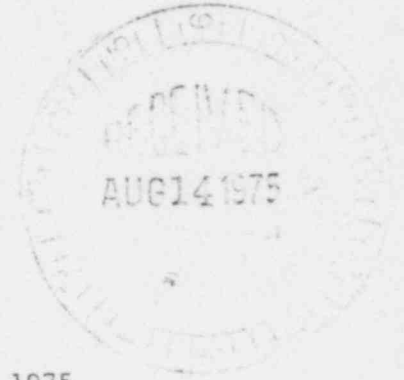

PROPOSED CHANGE: Reference is made to the Technical Specifications, Appendix A of the reference license. We propose to amend these Specifications to incorporate an Administrative Control section.

REASON FOR CHANGE: The purpose of this change is to comply with Nuclear Regulatory Commission letter to Yankee Atomic Electric Company, dated March 26, 1975 which requested the Company to submit an application for amendment to its license that would change the Technical Specifications relative to Administrative Controls so as to be in conformance with the requirements in the Standardized Technical Specifications.

DESCRIPTION OF CHANGE: We request that the following changes be made to Appendix A of the Technical Specifications:

1. Insert Attachment A, Administrative Controls, of this Proposed Change as a new paragraph H of the Technical Specifications
2. Delete the 2nd, 3rd and 4th paragraphs under D.1 Operating Procedures.

These paragraphs refer to Procedures, Instructions and the Nuclear Safety Audit and Review Committee that are now included in the new Administrative Controls.

8011140 308

P

8045

3. Delete Table 5.1.2 "Minimum Shift Crew Personnel and License Requirements."
This Table is now included in the new Administrative Controls, Paragraph "H". This table was added to the Technical Specifications by the AEC in a letter from D. J. Skovholt dated August 16, 1973 and entitled Change 109.
4. Attachment A, the proposed Administrative Controls differs in several respects from the Standard Technical Specifications. Attachment B justifies these differences.
5. For convenience in incorporating these Administrative Controls in our proposed Technical Specifications currently under review, Reference 3, we have retained the numbering system used in the Standard Technical Specifications.

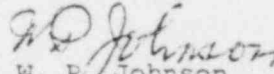

SAFETY CONSIDERATIONS: This proposed change revises the existing Administrative Controls Technical Specifications to be consistent with the Commission's Standard Administrative Controls Technical Specifications and therefore it does not endanger the health and safety of the public. This proposed change has been reviewed by the Nuclear Safety Audit and Review Committee.

SCHEDULE OF CHANGE: This change will be implemented upon Commission approval.

We trust you will find this submittal satisfactory; however, should you desire additional information, feel free to contact us.

Respectfully submitted,

YANKEE ATOMIC ELECTRIC COMPANY

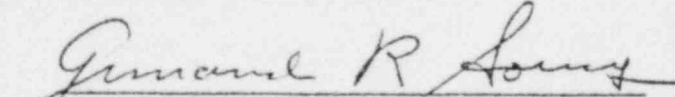

W. P. Johnson
Vice President

COMMONWEALTH OF MASSACHUSETTS)

) ss.

COUNTY OF WORCESTER)

Then personally appeared before me, W. P. Johnson, who, being duly sworn did state that he is Vice President of Yankee Atomic Electric Company, that he is duly authorized to execute and file the foregoing request in the name and on the behalf of Yankee Atomic Electric Company, and that the statements therein are true to the best of his knowledge and belief.
