

DOCKET NUMBER 50-289
PROD. & UTIL. TAG. Restart

December 1, 1980

DOCKET NO: 50-289SP
TMI - UNIT 1
MIDDLETOWN, PA.

Dear Mr. Ahearne:

I believe that today with this country's increased reliance on foreign oil and with reduced assurance of continued supply in that oil, we must more effectively utilize other energy options. I am writing this letter to request your personal support in getting Unit 1 of Three Mile Island restarted in an expeditious way. I think that this is essential, not only to provide the valuable energy from that plant, but also in a symbolic way to demonstrate that despite the very unfortunate accident at TMI-2, the U.S. is facing up to serious future energy problems and pushing forward with uranium for increased electrical production.

Thank you for your consideration,

D. L. Fischer
