DOCKET NUMBER  
PROD. & UTIL. FAC. 50-289  
*Restart*

December 2, 1980

Mr. John F. Ahearne  
Chairman Commissioner  
U.S. Nuclear Regulatory Commission  
1717 H Street, N.W.  
Washington, D.C. 20555

Subject: Docket 50-289SP  
TMI - Unit 1  
Middletown, PA

Dear Mr. Ahearne:

We understand the cleanup and restart situation of TMI Unit Two. We do not understand the unreasonable delay for the restart of Unit One.

At a time when this Nation is striving for energy independence, which includes increased use of nuclear fuel, preventing an operable energy center from returning to full production does not seem logical.

We encourage a realistic perspective to the use of all forms of energy and ask no less for the consideration of the restart of TMI Unit One.

Sincerely,

Donna Dilsaver
