COLORADO DEPARTMENT OF HEALTH

Richard D. Lamm
Governor

Frank A. Traylor, M.D.
Executive Director

October 28, 1980

Mr. Ross Scarano, Director
Uranium Recovery Licensing Branch
Division of Waste Management
Mail Stop 483-SS
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Scarano:

The Department has not yet received a description of the extent of information, which was obtained by U.S. Nuclear Regulatory Commission contractors at the Union Carbide Corporation's Uravan, Colorado mill in late 1977 -- early 1978.

Five months seems long enough to honor the Department's request concerning the nature of the information and an estimate of the schedule and format for its release.

Your immediate attention to our request will be appreciated.

Sincerely,

Albert J. Hazle, Director
Radiation and Hazardous
Wastes Control Division

AJH/KLKw/ddb
