

OCT 28 1980

Mr. C. Reed
Commonwealth Edison Company
P. O. Box 767
Chicago, Illinois 60690

Dear Mr. Reed:

The Office of Management and Program Analysis is presently preparing a summary of radioactive effluents released from commercial nuclear power plants during 1978. The work is being performed under contract with Brookhaven National Laboratory. The report will be similar to NUREG-0521, "Radioactive Materials Released from Nuclear Power Plants 1977." It will differ from NUREG-0521 somewhat in format since it is being tailored to the reporting criteria given in Regulatory Guide 1.21, "Measuring, Evaluating, and Reporting Radioactivity in Solid Wastes and Releases of Radioactive Materials in Liquid and Gaseous Effluents from Light-Water-Cooled Nuclear Power Plants."

In order to verify the accuracy of the information before its publication, a draft copy of the data with respect to your plant(s) is enclosed for your review. We would appreciate receiving your comments and suggested changes by November 15, 1980. Please respond to this office even if no changes to the data are required. Responses should be sent to:

M. R. Beebe
U. S. Nuclear Regulatory Commission
Office of Management and Program Analysis
Licensee Operations Evaluation Branch
Washington, D. C. 20555.

A copy of the final report will be sent to you. We expect the 1979 report to be completed shortly after the 1978 report.

Sincerely,

IS
R. A. Hartfield, Chief
Licensee Operations Evaluation Branch
Office of Management and Program Analysis
