The Honorable Peter A. Bradford
Nuclear Regulatory Commission
Washington, D. C. 20555

Your Honor

As one of the citizens of the area supplied with electricity by Metropolitan Edison Company, I want to hereby urge you and the other members of the Nuclear Regulatory Commission to authorize immediate operation of Unit 1 at Three Mile Island.

From all I can learn, it seems that Met Ed has acted in good faith, and maybe gone beyond duty to make Unit One very safe to operate. Needless to say, every day that Unit One is not in operation the Met-Ed Customer is paying more money for the electricity used.

Please give immediate authorization to Met Ed, without delay. We need the electricity generated by Unit 1. Thank you.

Sincerely yours

Levi J. Ziegler
