Docket No. 50-155

Consumers Power Company
ATTN: Mr. Ralph B. Sewell
Nuclear Licensing Administrator
212 W. Michigan Avenue
Jackson, Michigan 49201

Gentlemen:

We have reviewed the Consumers Power Company "Training Program, Hot License Candidates" to be used at the Big Rock Plant for Reactor Operators and Senior Operators which you submitted on June 27, 1975. Your program describes the training which will be completed for those individuals who will seek a license pursuant to Title 10 CFR Part 55, Operator Licenses. Your program includes the requirements for those who seek a waiver of the operator demonstration pursuant to our letter, dated October 3, 1974.

Based on our review of the information contained in your program, we have determined that individuals who successfully complete the program will be eligible to be administered an exam without the need to perform a reactor startup.

Every effort should be made to have a diversity of reactivity changes for each applicant.

Sincerely,

ORIGINAL SIGNED BY
P. F. COLLINS

Paul F. Collins, Chief
Operator Licensing Branch
Division of Reactor Licensing
