US Nuclear Regulatory Commission
Washington, DC 20555

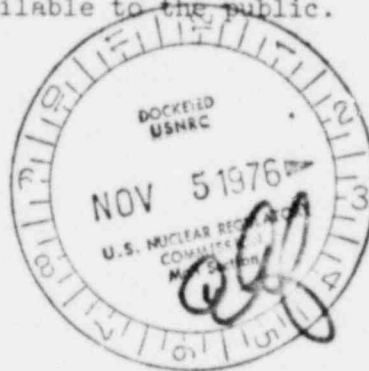

DOCKET 50-155, LICENSE DPR-6 -
BIG ROCK POINT PLANT

By letter dated February 3, 1975, Consumers Power Company transmitted a report (XN-75-11) entitled "Densification Data of Light Water Reactor Mixed-Oxide Pellets and Comparison with UO₂ Pellets" prepared by Exxon Nuclear Company, Inc. At that time, we advised you that this report was considered proprietary data by Exxon and requested that it be withheld from public disclosure.

By letter dated October 13, 1976 (attached), Mr Roy Nilson has informed me that this report is no longer considered proprietary by Exxon. You are requested to remove the "Exxon Nuclear Proprietary" marking from the title page and Item (3) from the disclaimer following the title page. When these changes are made, the report can be made available to the public.

Dear Mike:

On February 3, 1975, you responded in a letter to Mr. Dennis Ziemann, NRC, that our report XN-75-11 entitled "Densification Data of Light Water Reactor Mixed Oxide Pellets and Comparison with UO₂ Pellets" be withheld in its entirety from public disclosure in accordance with 10 CFR 2.790(b) because it contained data considered proprietary by Exxon Nuclear.

We have recently reviewed this report and conclude that the information contained in it is no longer considered proprietary by us. You are hereby requested to so inform Mr. Ziemann and further request the NRC to remove the "Exxon Nuclear Proprietary" marking from the title page and item (3) from the disclaimer following the title page. When these changes are made, the report can be made available to the public. You may send a copy of this letter to Mr. Ziemann as evidence of our decision.

Furthermore, in a separate request on September 13 from Mr. J. M. Felton, Director of the NRC's Division of Rules and Records, he requested further information to support the proprietary status of the report. I will respond separately to Mr. Felton.

Sincerely,

Roy Nilson, Manager
Quality Assurance & Licensing
