We have reviewed your letter dated April 7, 1978 which submits your schedule for inservice inspection requirements at Big Rock Point. Your schedule date of February 1, 1979 for the beginning of the last 40 month period within the second 10 year interval is consistent with code requirements. We find that your proposed dates for submitting Technical Specification change requests, description of planned inservice inspection, and start of the last 40 month period to be acceptable.

Sincerely,

Original Signed by:
