Office of Inspection and Enforcement
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

Reference: (1) B. H. Grier letter to W. G. Council dated November 14, 1980,
transmitting I&E Bulletin No. 80-23.

Gentlemen:

Haddam Neck Plant
Millstone Nuclear Power Station, Unit Nos. 1 and 2
I&E Bulletin No. 80-23

In Reference (1), the NRC Staff requested the Connecticut Yankee Atomic Power Company (CYAPCO) and Northeast Nuclear Energy Company (NNECO) to determine whether Valcor solenoid valves having part Nos. V70900-21-1 or V70900-21-3 are used to perform safety-related functions at the Haddam Neck Plant and Millstone Unit Nos. 1 and 2, respectfully.

Both CYAPCO and NNECO have determined that the Valcor solenoid valves described in Reference (1) are not installed at either the Haddam Neck Plant or Millstone Unit Nos. 1 and 2.

It is estimated that six manhours were expended in the conduct of the review and preparation of this report as required by Reference (1).

We trust you find this information responsive to the Reference (1) requests.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
NORTHEAST NUCLEAR ENERGY COMPANY
