DOCKET 50-155 - LICENSE DPR-6 -  
BIG ROCK POINT PLANT - T/S CHANGE -  
DELETION OF ANNUAL OPERATING REPORT

Transmitted herewith are three (3) original and thirty-seven (37) conformed copies of a proposed change to the Technical Specifications for the Big Rock Point Plant, Docket 50-155, License DPR-6.

The purpose of this change is to delete the Technical Specifications requirement for an Annual Operating Report as described in your letter of September 19, 1977. Further, Consumers Power Company will modify the Monthly Operating Report in accordance with the revised format effective January 1, 1978.

CONSUMERS POWER COMPANY  
Docket 50-155  
Request for Change to the Technical Specifications  
License DPR-6

For the reasons hereinafter set forth, it is requested that the Technical Specifications contained in Facility Operating License DPR-6, Docket 50-155, issued to Consumers Power Company on May 1, 1964 for the Big Rock Point Plant be changed as described in Section I below:

I. Changes

A. Delete existing Specification 6.9.1.b and substitute the following:

"b. Annual Report

An annual report covering occupational exposure during the calendar year to supplement requirements of 10 CFR 20.407 should be submitted prior to March 1 of each year.

This annual report shall include:

A tabulation on an annual basis of the number of station, utility and other personnel (including contractors) receiving exposures greater than 100 mRem/yr and their associated man-Rem exposure according to work and job functions, eg, reactor operations and surveillance, inservice inspection, routine maintenance, special maintenance (describe maintenance), waste processing, and refueling. The dose assignment to various duty functions may be estimates based on pocket dosimeter, TLD, or film badge measurements. Small exposures totaling less than 20% of the individual total dose need not be accounted for. In the aggregate, at least 80% of the total whole body dose received from external sources shall be assigned to specific major work functions."

B. Revise Section 6.9.1.c as follows: Replace "Office of Inspection and Enforcement" with "Director, Office of Management Information and Program Control."

NOTE: Corrected Technical Specifications pages are enclosed.

II. Discussion

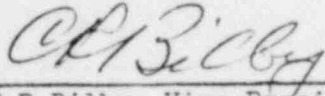

By letter dated September 19, 1977, Consumers Power Company was requested to propose a change to the Big Rock Point Technical Specifications deleting the requirement for an Annual Operating Report. Changes A and B are submitted reflecting this request.

III. Conclusion

Based on the foregoing, the Big Rock Point Plant Review Committee has concluded that this change does not involve an unreviewed safety question, and the Safety and Audit Review Board finds this change acceptable.
